

ROHIT PANCHOLI

Senior Angular Developer | React & Next.js (AI-Assisted)

Indore, Madhya Pradesh, 452001 | +91 7987228496 | pancholirohit21@gmail.com | linkedin.com/in/rohit-pancholi

PROFESSIONAL SUMMARY

Senior Angular Developer with 5 years of experience delivering scalable, production-grade web applications across Insurance, Fintech, ERP, HRMS, Education, and iGaming domains for international clients across the US, India, Saudi Arabia, Tunisia, Uzbekistan, and Australia. Expert in Angular version migrations, RxJS-driven state management, reusable component architecture, and performance optimisation. Hands-on exposure to React and Next.js through AI-assisted development workflows. Experienced building applications from scratch, leading front-end teams, and delivering production-ready software using Agile methodologies.

TECHNICAL SKILLS

- **Frontend:** Angular (v11–Latest), Angular Material, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, React, Next.js, ngx-translate
- **State Management & Rendering:** RxJS, Redux, SSR, ISR, SWR, Caching
- **Backend:** Node.js, RESTful APIs
- **Performance:** Lazy Loading, Optimised Change Detection, Code Splitting, Version Migration
- **Core Concepts:** RBAC, Dynamic Components, CRUD Operations, HTTP Interceptors, Auth Guards, Responsive Design, RTL/LTR Localisation
- **Tools:** Git, SourceTree, Bitbucket, Jira, Trello, npm, SquirrelL, Firebase, AWS
- **Methodology:** Agile / Scrum / Waterfall
- **Domain Expertise:** Insurance, Fintech, HRMS, Education, ERP, Casino/iGaming
- **Languages:** Hindi, English

PROFESSIONAL EXPERIENCE

Senior Software Developer | *Iwin Labs, Indore* **Nov 2025 – Present**

- Lead and mentor a team of 5+ engineers, delivering 6+ production iGaming applications for international clients across the US, India, Saudi Arabia, Tunisia, Uzbekistan, and Australia.
- Build secure, scalable Angular solutions, implementing IP-based geolocation for regional compliance and integrating third-party game providers.
- Direct AI-assisted development (Claude, Antigravity, Codex, Tray, Cursor, Copilot) to architect and deliver a React/Next.js project, applying software engineering fundamentals to guide implementation and code quality.
- Collaborate with global stakeholders to ensure high-performance, secure gaming platforms, maintaining 99% uptime with zero critical security incidents.

Software Developer | *Centricity Wealth Tech Pvt. Ltd., Gurugram* **Apr 2024 – Oct 2025**

- Built the One-Sure application from scratch, replacing DevExtreme with a custom grid and reusable, paginated data tables, improving UI scalability and maintainability.
- Developed a speech-enabled chatbot (One Digital) using STT/TTS technologies and a recommendation system to deliver personalised user experiences.
- Led front-end development across Insurance and Fintech products, implementing optimised, domain-specific Angular solutions.
- Executed Angular version migrations and reduced third-party dependencies, improving speed, load time, and overall application stability by 30%.
- Managed and guided the front-end team, streamlining development workflows and enforcing coding standards.

Software Developer | *Amstech Incorporation Pvt. Ltd., Indore* **Aug 2021 – Feb 2024**

- Developed scalable Angular applications across ERP, HRMS, and Education domains, integrating REST APIs, routing, authentication, and Firebase real-time notifications.
- Migrated Angular applications from v11 to v13, refactoring legacy modules, redesigning analytics dashboards, and implementing global error handling via custom HTTP interceptors.

- Built multilingual (Arabic/English) applications using ngx-translate and Angular Material with RTL/LTR layout handling for seamless localisation.
- Delivered 4+ projects within Agile/Scrum workflows while leading the front-end team and coordinating with international clients and backend teams.

SELECTED PROJECTS

- **Lady Lucka:** Integrated third-party games, implemented IP-based geolocation compliance, and led a team of 5 developers.
- **One-Sure:** Built from scratch; replaced DevExtreme with a custom grid; established architecture and coding standards.
- **One Digital:** Developed a voice-enabled chatbot using STT/TTS and personalised recommendation features.
- **HRMS & Payroll ERP:** Migrated Angular v11 to v13; implemented interceptors, analytics dashboards, and performance optimisation.
- **Campus Management System (IIM Indore):** Implemented RBAC, Firebase notifications, lazy loading, Auth Guards, and RxJS-driven workflows.
- **Offer SA:** Built a multilingual Arabic/English Angular application with ngx-translate and RTL/LTR support.

EDUCATION

Bachelor of Engineering, Information Technology

Swami Vivekananda College of Engineering, Indore | 2016 – 2020

LANGUAGES

Hindi, English
